INTRODUCTION TO THE AFFILIATE PROGRAM

The Affiliate program is a way for us to compensate you for orders placed by your patients / clients. They receive a discount when they use your unique code to place an order.

HOW DOES THE AFFILIATES PROGRAM WORK?

When you sign up, a unique affiliate link (to products on adeeva.com) is generated for you to share with your patients/clients. You can also generate a coupon code for your referrals to use when they order. Whenever your referrals purchase using your unique link or coupon code, they get a 15% discount and you receive 25% on their purchase amount.

These discounts and payouts are ongoing – every time a purchase is made via your unique identifier(s).

Our system takes care of all transactions and processing automatically.

ALLOCATION OF COMMISSION & DISCOUNT

Affiliate compensation is calculated on the net purchase amount (i.e., after deducting the 15% discount received by the patient/ client).

For example: (Consumer discount is 15%) On the sale of \$100 product, the consumer will get \$15.00 as discount and the Affiliate will receive 25% commission on the remaining amount of \$85.00 which is \$21.25.

HOW DO I SIGN UP TO THE PROGRAM?

You can register yourself for this program by submitting your details [here](#).

We will review and verify your application. Once approved, you will be notified by an email containing a login link and “how to get started” instructions.
